Intelligentsia Coffee

Founded in 1995, Intelligentsia Coffee has dedicated themselves to a simple mission: buy, roast and serve the finest coffees available. At Farmers & Fishers, we share their passion for the finest products produced in the most responsible ways. Compassionate treatment of people and the environment inevitably yields higher quality. Intelligentsia works with coffee farmers from Panama to Itzamna to Kenya and believes in Direct Trade which means the farmers receive full price for their crops. In return, the farmers grow only the highest quality beans which Intelligentsia then roasts daily in vintage roasters. Farmers & Fishers takes that high quality coffee and brews it fresh several times a day to give you a cup that captures the entirety of the freshness and the flavor.
